
Notice of Change to Certification Requirements

Date of Notice: 12/7/2011

Change Number: 7544.81

Comment Period Ending Date: 1/6/2012

Comments may be submitted electronically during the comment period to programupdates@greenguard.org. The comment period begins on the date of notice and ends at 12:00 midnight EST on the comment period ending date listed above. *Please be sure to reference the change number listed above in your correspondence. Correspondence without the change number will be disregarded.*

Description of Proposed Change:

The emissions criteria in GGPS.002, "GREENGUARD Children & SchoolsSM Standard" for all measured analytes will be required to be met at 336 hours (14 days) or earlier to be consistent with the CA Section 01350 CREL requirements.

Rationale:

This change simplifies the application and understanding of the GREENGUARD Children & Schools standard by requiring that all emissions criteria be met at 336 hours (14 days) or earlier as required by CA Section 01350 for measured CRELS.
